

***Prof. Dr Chen-Guang Bai***

Professor in the Department of Metallurgical Engineering

*College of Materials Science and Engineering*

Chongqing University, China

Email: [bguang@cqu.edu.cn](mailto:bguang@cqu.edu.cn)

Dr. Chen-Guang Bai is currently a Professor in the Department of Metallurgical Engineering, School of Materials Science and Engineering at Chongqing University, China. He received his B.S. degree in 1982, M.S. degree in 1987, and Ph.D. in 2003, all from Chongqing University. From October 1995 to January 1997, he furthered his studies as a visiting scholar in the Department of Metallurgy and Materials at the University of Toronto.

Dr. Bai has been deeply engaged in teaching and scientific research in ferrous metallurgy, with a particular focus on ironmaking and the comprehensive utilization of vanadium-titanium magnetite resources. He holds more than 60 patents and has published over 400 research articles, including approximately 100 in international metallurgical journals.

He serves as a council member of the Chinese Society for Metals (CSM) and has been a member of the Advisory Committee of Experts for the Department of Engineering and Materials Science at the National Natural Science Foundation of China (NSFC). He also served as Vice President of Chongqing University from 2009 to 2011 and as Vice Chairman of the University Council from 2011 to 2016.
